one of the main teachers of Chögyal Namkhai Norbu

These special days strengthen the function of our practice especially when connecting together in the transmission and applying collective practices, integrating the Song and Vajra Dance worldwide.

We can practice The Dance of The Three Vajras in its irregular form.

The function of the mantra, when integrated with true knowledge in the state of contemplation, empowers the Transmission and has definite benefits, harmonising our dimension on a global scale generating a positive pulse to all sentient beings interdependently connected.

According to our circumstances we can also apply Guru Yoga, integrating with any other Vajra Dance we know, including the Vajra Dance of Space Khalong Dorjei Kar of 12 A dancing on an imaginary Mandala or circumference, symbol of a pure dimension beyond limitation.

On this auspicious occasion we can wear the Vajra Dance Costume, symbol of our inner pure dimension or real nature, with relative benefits for our three existences Body, Speech and Mind.

Schedule

We are free to choose the time for the practice according to our circumstances, entering the chain of the collective intention.

We wish you a marvelous earth-dog-year,
health, prosperity and inspired practice.
