

Accommodation Service for Members

Date : October 26, 2016

Dear Vajra brothers and sisters

As you probably know, most of the houses in our beautiful global gar [Dzamling Gar](#), while still under reconstruction, are nearing completion. In 2012, Rinpoche offered each of the regional gars a house within Dzamling Gar so that each gar could offer an accommodation service to their members of our global community.

It is very likely that all these houses will be available for accommodation for our members during this coming retreat season.

Accommodation reservations for each Gar are now supervised by “Occupation Managers” who will take care to ensure we provide an accommodation service with clear guidelines that respect the privilege and requirements of residing in Dzamling Gar.

Any interested member of the International Dzogchen Community is invited to make application to reserve accommodation by communicating to the Occupation Manager approved by the Gar where they have established membership.

If you wish to make a reservation, please contact:
