

First Ceramic Courses at Merigar, 12-14 and 19-21 July 2019

Date : August 2, 2019

Organised by [The Dynamic Space of the Elements](#)

We learned various techniques on ceramic modeling, wheel throwing, decorating, glazing and painting.

Many community members and also new people participated, and enjoyed the possibility of the time of creativity.

“The three day ceramic course was an excellent method of helping me as a practitioner to integrate the teachings and as a community to connect with the people and open more. The teachers were excellent, knowledgeable, accessible, patient. I learned a lot. I found parts of myself I didn’t know I had – spontaneous, artistic parts, creative. I would like to do more. An ongoing class. Everyone appeared to enjoy it. Thank you to the organisers and supporters.” ~ Mari

Discovering parts and sides of oneself one didn't even expect to have! The course is a brilliant idea and we hope there will be many more to come... Thank you! Grazie Rinpoche!"

~ Giada

"Thank you for an inspirational three days. I really enjoyed the course and meeting new people. The teachers were fabulous! Very patient and very knowledgeable. Fully recommend the course."

~ Paula

“Quando é il prossimo? Grazie! Era bellissimo!” ~ Alix

“Very well organised, a great variety of techniques, abundant materials and cell equipment comfortable room, very kind, patient teachers, unlimited opportunities, great, healthy refreshments, thanks!”

So thank you for all of your participations, see you at the next events!
