

Deepening Tsalung at Kunsangar South, Crimea

Date : July 24, 2019

Deepening study of Tsalung of Mandarava with Fabio Andrico

From June 28 until July 5, 2019, there was a course on a deeper study of the Tsalungs of Mandarava with Fabio Andrico at Kunsangar South. The retreat was effective and at the same time relaxed. Thanks to the profound work of Fabio Andrico, Elio Guarisco and Nina Robison on the document about Tsalung collective practices, we managed to study all the Tsalungs under Fabio's guidance. For the first time since 2013 more than fifty people participated in the retreat at Kunsangar South. On a Ganapuja day during solar eclipse, more than seventy people gathered in the Gönpa. All participants feel inspired to continue and deepen their practice. We whole heartedly thank our sponsors who created an opportunity for all people to take part in this retreat!
