

Died - Victor Matveyev

Date : September 26, 2018

We inform you that our vajra brother and faithful student of Chögyal Namkhai Norbu, Victor Matveyev, passed away August 31, 2018 at about 2 am. The cause of death was cancer, from which he suffered for a long time but didn't tell anyone. Directly before his death, he suffered severe pain due to this disease.

Victor Matveyev was one of those people who created the Dzogchen community in Latvia in the early 1990s. In particular for me (and for several more people) he was the one who told about the Dzogchen teachings and Chögyal

Namkhai Norbu!

All these years he practiced Tibetan medicine. He was very generous and helped people. Also he did a lot of good and useful things for Dzogchen Community.

Sincerely yours,

Irina Pustovit
