## **Khaita at Pariling**

January 19-20, 2019

Stoffelina Verdonk, an instructor of Khaita Joyful Dances was invited to Palriling, she trained the ten participants of this retreat and led them to the Harmony in the Sky » ( true meaning of khaita). Well grounded, they experienced with great joy, sensations of body, movement, energy, space, and also unity as a group. The common desire to continue to practice these dances materializes by a meeting every other Sunday, where you are all welcome. We are sorry that some dancers are not in the photo due to their various transportation time constraints.

Thanks to Stoffelina and the dancers!
