

Nepal Earthquake - Please Help Those Affected!

Date : April 27, 2015

The area surrounding Kathmandu, the capital of Nepal, has been hit by a devastating earthquake with a magnitude of 7.9, which has caused more than 3,700 victims, thousands of wounded and destroyed civil, cultural and religious buildings.

The extent of the damages is still unknown but ASIA is already in the field organizing first aid programs for children, families and monks.

You can participate in our effort, using a form you can find on the link below to donate via credit card (e.g. Paypal). All the funds raised will go to emergency relief for the affected population, with the support of ASIA local staff.

Help now the communities hit by the earthquake
