Dear Vajra Family,

We're happy to announce a new book containing Rinpoche's comments to Khaita songs:

<http://shop.shangshungfoundation.com/en/books/718-collected-comments-on-the-songs-in-message-from-tibet-2000000008882.html>

This book contains Chögyal Namkhai Norbu's invaluable precious comments on the songs from his first collection, *Message from Tibet*, revealing multiple levels of interpretation: one more external and immediate, one more symbolic, and one more internal, connected to the teaching.

Rinpoche's explanations make it easier to understand the songs in *Message from Tibet* more precisely because he clarifies the meaning of the individual verses and words and sheds light on nuances that we may not otherwise recognize. In addition, beyond helping us appreciate the poignant message communicated in each song, the *Collected*

Comments can serve as an effective tool for learning some of the recurrent words and becoming familiar with the Tibetan language.
