

Sang at Home!

Date : October 7, 2019

Good day for everybody!

Do you like to do the practice of *sang* but you live in a city and do not have a garden? Then we have a great solution for you.

Migmar and Cecilia with their team have started with the production of *sangkhangs* that are perfectly made or doing the *sang*practice right in your house.

Each *sangkhang* is 15 cm long, 15 cm wide and 23 cm high.

The *sangkhangs* are hand-made of ceramic and were manufactured by the “Dynamic Space of the Elements” team in Merigar.

You can use the *sangkhang* also as an incense burner: See here: <https://vimeo.com/364267628>

The *sangkhangs* are available in two styles: as a white one – see shown in the attached photo -,

and as a colored one. A white *sangkhang* costs 70 Euro, a colored one 90 Euro. The mailing costs depend on your country and are not included in this price. We will inform you about the costs of mailing as soon as we have received your order. Each *sangkhang* will be shipped with some coal to burn the *sang*, and with some *sang* collected from several sacred places.

You can order the *sangkhangs* directly in Italy, please write to Cecilia Damiani: damiani.cecilia@yahoo.com, your order will be shipped from Italy.

Some white ones you can order also from Shang Shung Institute Austria, pls write to: office@ssi-austria.at and they will be sent from Austria.

You can either pay directly to Cecilia from the “Dynamic Space of the Elements” team or you use this link for paying with PayPal via the Shang Shung Institute Austria: just use this link: [PAYPAL](#)

Very best wishes,

Oliver Leick

Director of the Shang Shung Institute Austria in collaboration with Migmar, Cecilia and their team
