**How to participate:**

From now on, you can make your offer online by entering the amount of your donation and your contact details under each item. The process will continue until the final round which will be after the Ganapuja starting 4pm (Tenerife time GMT +0:00) on the 2nd January 2017. The Ganapuja and Gönpa project introduction will be webcast. Then we will go item by item, starting with highest amount offered online. People in the Gönpa will have the possibility to offer the donation in this moment too but people can still offer online. The moderator will close offers for each item once the highest amount has been reached, both online and in the Gönpa. Then the object will be delivered to the lucky person who donated the most and the income will go towards the new Dzamling Gar Gönpa project.

Start the New Year with generosity to others by donating to this project which can forever benefit sentient beings!
